AND THE MEMBERSHIP WILL BE BLOCKED UNTIL PAID.

Kikuyu Treatment on Our Greens

Dear Club Members,

We would like to inform you that we have commenced our first round of treatment to manage the kikuyu patches on our greens. This is an important step in our ongoing effort to enhance the quality of our playing surfaces.

Treatment Details:

Method: Application using a knapsack sprayer

Frequency: Every 7 days until the treatment process is complete

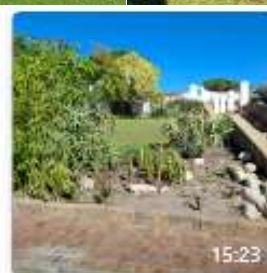

Visual Impact: As the treatment takes effect, the kikuyu will gradually decline, developing a dark yellow coloration. These patches will be visible on the greens throughout the month of April. While this change in appearance may be noticeable, please be assured that it is a necessary measure to control the kikuyu infestation and improve our greens.

We appreciate your understanding and support as we work to maintain and improve the standards of our club. Should you have any questions or concerns about this process, please do not hesitate to contact me / us.

Kind regards,

Michael Harvie

Just joking...

"Golf is a lot like taxes—you drive hard to get to the green, then end up in the hole!" 🤔 🏌️

And finally...

**Please Remember to Fill YOUR Divots
& Repair YOUR Pitch Marks!**

ALWAYS CARRY A SANDBAG / BOTTLE & MAKE SURE IT IS REGULARLY FILLED UP.

Yours in Golf!

The KRGCC Team
